

High Capacity Li-ion Cell

Product ID: **28987**

This is a rechargeable Li-ion Cell in an "18650" form factor. Made by Tenergy, this cell is rated at 3.7 V and 2600 mAh. This is a "protected" type of lithium cell, with a built in PCB. Pair these with our Small Robot Pack-Charger to provide long-lasting, consistent power for your Boe-Bot, Shield-Bot or ActivityBot robot.

Key Features:

- 3.7 volt Li-ion 18650 cell
- Built-in protection circuit prevents voltages outside of 2.5–4.25 V
- Fits our Li-ion Small Robot Pack-Charger (28988) which mounts within our small robot chassis
